

PROOF THAT SAM LEE IS OWNER AND CONTROLS THE VIDILOOK WALLETS

My name is Garrett Blakeslee and I used to be the Director of global operations for the vidilook platform. I am here to address the 2 accusations brought against me by Samuel Xu Lee. The first accusation is that I am owner of Vidilook and the second is that I control the main vidilook wallet.

The following screen shots show a transaction from the main Vidilook main wallet, to my wallet on April 20th by Samuel Xu Lee.

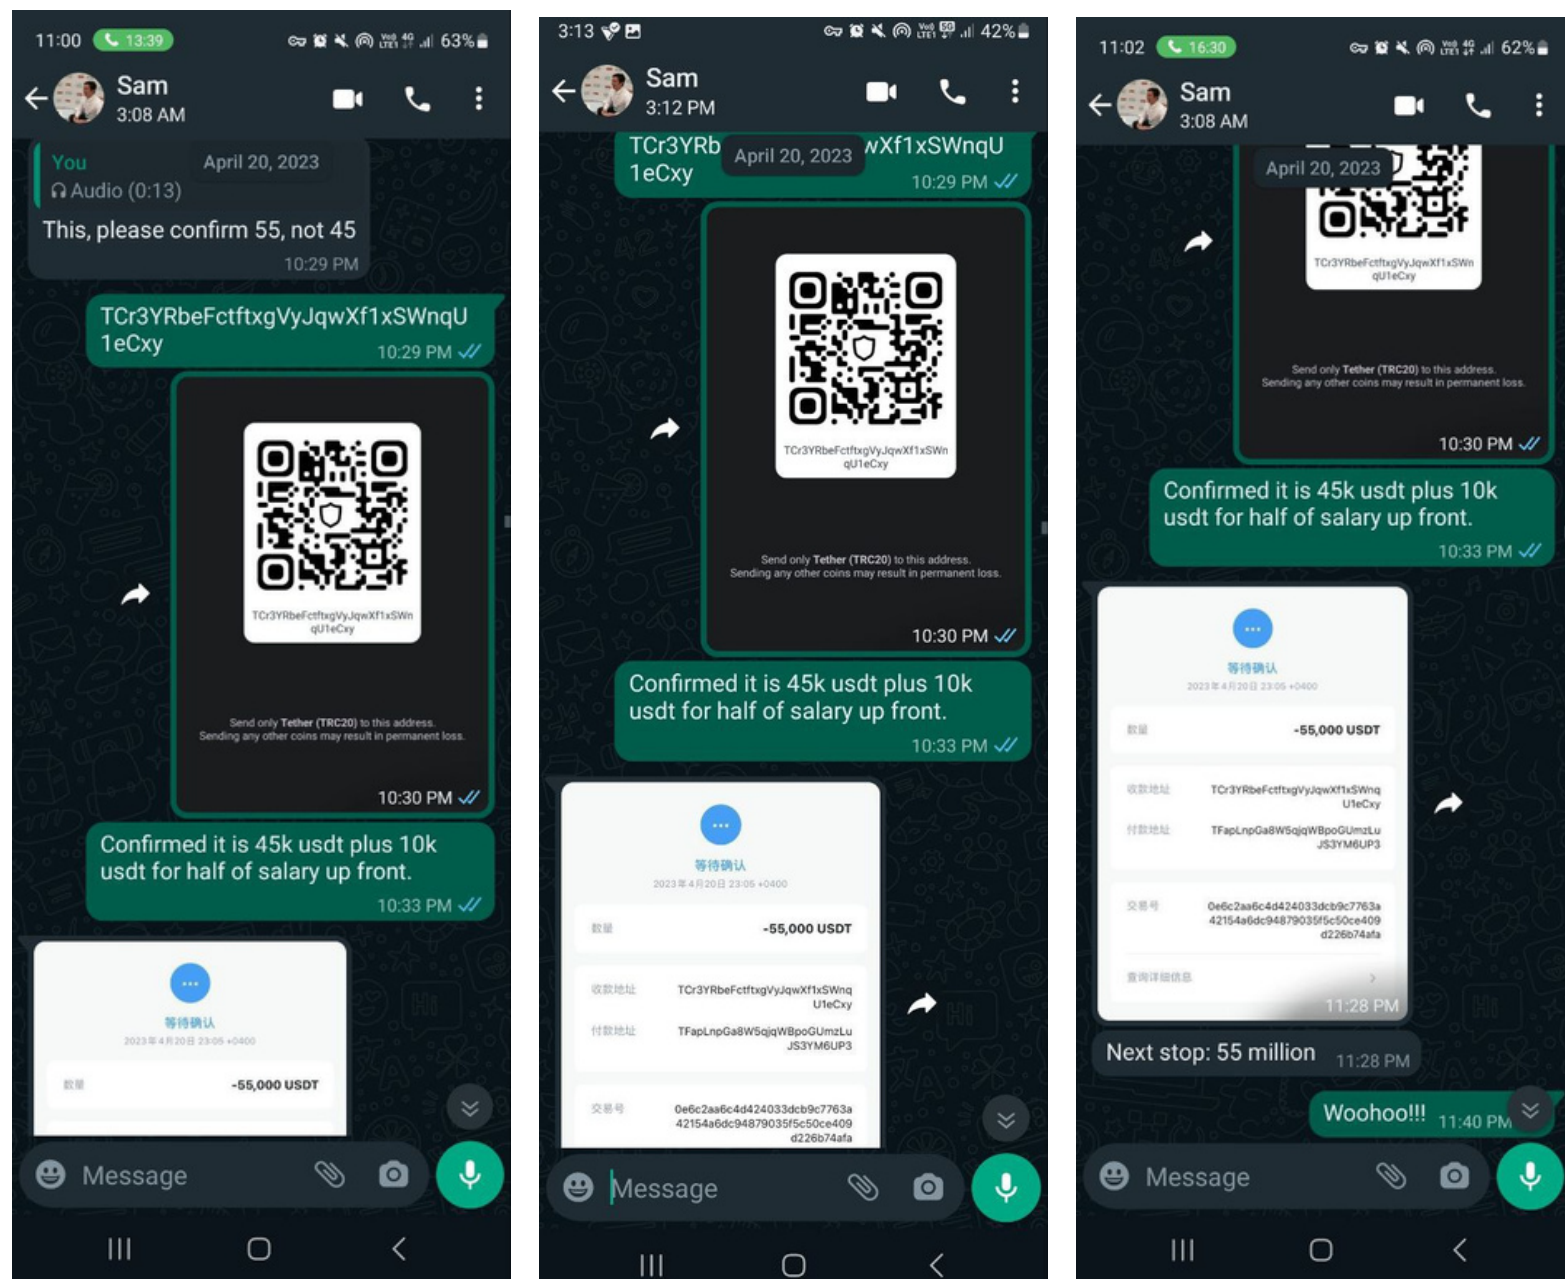

This is my TRC20 wallet address in the first screen shot above (TCr3YRbeFctftxgVyJqwXf1xSWnqU1eCxy) that received the \$55,000 USDT from the main Vidilook wallet on April 20th, 2023 (TFapLnpGa8W5qjqWBpoGUmzLuJS3Y6UP3).

The following link is the transaction above.

<https://tronscan.org/#/transaction/0e6c2aa6c4d424033dcb9c7763a42154a6dc94879035f5c50ce409d226b74afa>

In the following screen shot, you can see that this was payment for my salary.

The following youtube video was made by a community member explaining the wallet system. In the video it shows the same wallet that Sam sent the funds to me from and is the main wallet where all funds are sent into from users before they can purchase packages.

Sam states that he is NOT the owner of Vidilook and does NOT have control over the main Vidilook wallet. Then why is he paying my salary from it? Not only that, but the same wallet is still sending/receiving funds. If it has been hacked or is compromised and he is in control of the tech management, then cant he change the wallet to a new one in order to correct the issue and stop any further malicious activity?
