EMAIL BODY (AS RECEIVED)

Hello Danny,

As a sole operator, cashflow is everything. But it's hard to manage when you're operating without visibility on your tax liability and paying large accounting charges.

Afirmio gives you a real-time view of your finances so you can make smarter decisions with your budget. It also replaces the expensive accountant combo.

Our clients are often surprised at how much they cut their accounting outlay. One consultant reduced her accounting outlay dramatically.

I can share a short overview on how this works. Would you like to see it?

Thanks,
