Dear XXXXXXXX

We write in relation to your query and understand that due to misinformation in the public domain, you may have concerns as to whether the legal group action is genuine. We confirm that PSP Legal has been appointed by Iclickit to represent victims of Hyper Group crypto frauds and this is not a scam.

Due to the nature of this case, the misinformation, confidentiality, privacy and security reasons, we will not be disclosing information to non-clients or unauthenticated third parties about specific registration of PSP Legal and its lawyers or any other information beyond what is detailed on our website.

We do, however, confirm that PSP Legal and our lawyers operate in full compliance with all applicable laws and professional regulations. PSP Legal or its lawyers would not be licensed to operate in the

UAE if they were not able to meet the stringent requirements for legal practice.

Any participation in the victim group is voluntary and subject to onboarding procedures and checks, which entail KYC.

In due course, a process to onboard and undertake KYC for the group legal action will be sent out by Iclickit.

PSP Legal is finalising the process and requirements with Iclickit. Iclickit will then send an update communication, outlining the process.

Kind Regards

PSP Legal

Good day PSP - I am wanting to confirm your PSP Legal Practice has actually and indeed been appointed, as legal representative on the fraud charges against Sam Lee, and presented by Rory Conacher?
